

# Non Halogen flame retardant polyester film adhesive tape **638F**

**638F is non halogen flame retardant polyester film adhesive tape for electrical insulation.**  
**UL510 Flame retardant certified.**

## Structure

## Features

- ☆ UL recognized ( File No. E56086 )
- ☆ 510 Flame retardant
- ☆ Temperature rating 130°C
- ☆ Excellent insulation
- ☆ Halogen-free and not contain “antimony”

## Applications

- ☆ For electrical insulation of transformer and coil
- ☆ Any other purpose for flame resisting

## Properties

Overall thickness [mm]	0.058
Peel adhesion [N/25mm]	9.5
Tensile strength [N/25mm]	200.0
Elongation [%]	80
Flame retardant	UL510 Flame Retardant

The above values are typical examples measured using JIS or our corporate testing methods and are not guaranteed values.
